Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Cross-Reference to Related Applications

[0001] This application claims the benefit of U.S. Provisional Application Serial Number 60/332,149, filed on November 21, 2001, and is a continuation-in-part of U. S. Application No. 10/393, 330, filed on March 20, 2003, and entitled "Improved Advertising Compliance Monitoring System," which is a continuation-in-part of U. S. Application No. 10/158,146 filed on May 30, 2002, and entitled "Advertising Compliance Monitoring System," which are all assigned to the assignee of the present application. The applicants are claiming priority to the provisional application and Serial Nos. 10/393,330 and 10/158,146, thus making the effective filing date of this application November 21, 2001. The subject matter of the above applications is incorporated herein by reference in its entirety.

FIELD

[0002] The technology described in this application relates to an improved system and method of monitoring compliance with a Point of Purchase (POP) advertising program that displays one or more advertising signs or marketing materials, and more particularly to the monitoring of and exposure to advertising signs or marketing materials displayed at gas stations, convenience stores, grocery stores, mass merchandising outlets, drug stores, specialty retail outlets (*e.g.*, pet stores, record stores, book stores), consumer electronics stores, *etc.*

BACKGROUND

[0003] It is desirable to monitor retailer compliance with advertising programs. Advertising that is not displayed has no value to a company. However, non-compliance with an advertising program is difficult to detect in a timely manner.
